

BUILD RESIDENT POWER — JOIN COPE!

Medicine is already political. Our Committee on Political Education (COPE) allows resident physicians to have a voice and get involved so we can:

- ✓ Win strong contracts
- ✓ Influence local policy
- ✓ Advocate for the issues we and our patients care about

COPE is our member-run committee that sets and implements the political priorities for the region, as well as oversees our Political Action Committee (PAC) to contribute to candidates, campaigns, and organizations that share our values.

In **NEW YORK**, CIR residents and fellows have:

- Won an incredible new contract at NYC Health + Hospitals (2024).
- Secured inclusion of housestaff in the New York state healthcare worker bonus program (2022-2024).
- Introduced legislation in the NY State Senate and Assembly to establish an Abortion Training Fund, expanding access to abortion care training in NY.
